

## // Congratulations! You have bought an apartment! But what's next ?

After buying your apartment there are still many choices to be made. A lot of these choices have a big impact on how you will experience your home. We are experienced interior designers who can help you make the right decisions!

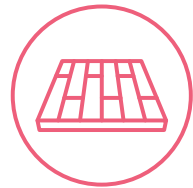

Should I make an extra room or not?

Do I need more light points ?

How can I create an authentic atmosphere in my new apartment?

What kind of floor matches my kitchen and where do I find it?

## // How does it work?

1. Please send us your doubts & wishes together with the floorplan of your apartment to [info@mabellastudio.com](mailto:info@mabellastudio.com)
2. We will prepare a creative session in which we propose our ideal lay -out ideas (where to place your furniture and where your light points should be) based on your specific needs.
3. The end result of our sessions will be captured in a digital floorplan. This will give you the right tools to further develop your interior; the exact placement and dimensions.

## // Who we are ?

We are Mabella Studio and we are specialized in the completion of new construction projects. Mabella Studio is part of interior design company Mabella Artisans based in Amsterdam.
